Therefore he now saw no reason why the journal, the form of which the House had a right to prescribe, should not be approved. This was done.
On motion of Mr. Morrill (Kan.) a com-

mittee of conference was ordered upon the Senate bill to increase the pension of soldiers and sailors totally helpless from injuries or disease received or incurred in service, and the Speaker named Messrs. Morrow, Sawyer and Yoder as conferees.

The Speaker announced that this was suspension day and

THE COMMITTEES WERE CALLED IN ORDER. On motion of Mr. Culberson (Tex.), in behalf of the judiciary committee, a bill was passed for the relief of Frank A. Lee. Mr. Lanham (Tex.), from the committee on

military affairs, moved to suspend the rules and pass the bill providing for the sale or removal of the improvements thereon, the purchase of a new site and the erection of suitable buildings thereon.

Mr. Cannon (Ill.) made the point of order that the committee had not instructed the

gentleman to take this course.

Mr. Lanham asserted that the members of the committee had informally authorized his action; but the Speaker sustained the point of order and the bill was withdrawn. Mr. Payson (Ill.), from the committee on lands, moved to suspend the rules and pass the bill providing for the compulsory at tendance of witnesses before registers and re-

ceivers of local land offices. Mr. McMillin (Tenn.), however, made a similar point of order against this bill and it was withdrawn. THE OKLAHOMA BILL.

Mr. Struble (Iowa) was more fortunate, as he had secured the formal instruction of the committee on territories to request the passage of a resolution making the bill to provide a temporary form of government for the territory of Oklahoma a special order for consideration tomorrow not

A second was ordered and Mr. Struble pro ceeded to explain the necessity for speedy ac-tion upon the Oklahoma bill. He said that the bill had passed the Senate last week, but the House committee on terri-tories had this morning directed the substitution for it of the bill already favorably reported by the committee to the House. There were now one hundred thousand law-abiding citizens in Oklahoma who earnestly desired the establishment of some form of government for the country prevent the development of friction that as already begun to manifest itself. Mr. Springer (Ill.) also urged prompt action upon the bill.

Mr. McMillin (Tenn.) said that as the matter was said to be of the first importance its consideration should not be interrupted by the world's fair bills or anything else. The resolution was then passed without ob-

Mr. Mills (Tex.) demanded a second; tellers

were appointed and the result was announced as—yeas, 114, nays, 8. Mr. Kilgore made the point of no quorum. MORE THAN A QUORUM.

The Speaker ran his eye rapidly over the House and in a few moments said: "There are 172 members present-more than a quorum."
Mr. McMillin (Tenn.) immediately protested

that the rules prescribed tellers as a means of ascertaining the presence or absence of quorum, and it was not proper for the chair to The Speaker inquired what rule required the

presence of tellers to determine the presence of a quorum. Mr. McMillin quoted from the rules touching motions to suspend the rules, which re-

quires that the motion shall be submitted to the House to be seconded by the majority by tellers if demanded. The Speaker inquired if there was any other suggestion the gentleman desired to make.

Mr. McMillin replied that a majority by

was not competent for the Speaker to make a quorum by his gavel or his pencil. The Speaker responded that a majority had seconded the motion—114 to 8—and debate on the motion was now in order. THE DEMOCRATS RESIST.

But the democrats made an earnest resistance to proceeding further. Mr. McMillin to 41/2 per cent, and that that saving of interest alone would enable contended that there was no rule that permitted the Speaker to count a quorum except the company to meet that additional during the progress of an aye and no call. Mr. Dockery (Mo.) said that the rule cited by amount to be paid by the Central Pacific would be \$1,700,000 annually until the final payment Mr. McMillin did not seem to provide for a count by the Speaker at all, but only by tellers. The Speaker replied that the rule provided for the count of those who voted. The vote had resulted 114 to 8-that seemed to be a

majority.

Mr. McMillin insisted that the point was that no quorum had voted.
